Gentlemen:

The purpose of this letter is to notify you that there has been a substitution of analytical methods for a portion of the routine monitoring at Operable Unit 1 (881 Hillside) and Operable Unit 2 (903 Pad, Mound, East Trenches). Technical Memorandum 1 for OU1 and Technical Memorandum 2 for OU2 specify analytical method 502.2 be used for specific Volatile Organic Analysis samples. Two sampling rounds for the RCRA Facility Investigation/Remedial Investigation have been conducted using this method. However, because the laboratory providing this service is no longer under contract, use of method 502.2 is unavailable. The method being used now is 524.

If you have any questions, please contact Scott Grace at 966-7199.

Sincerely,

James K. Hartman
Assistant Manager
for Environmental Management
